

Grow your partner network with Arcum Partner Manager

Arcum's Partner Manager helps you expand your merchant portfolio by seamlessly adding and managing Sub-ISOs, ISVs, and Agents within your Arcum RevMax Studio account. By providing your partners access under your master license, you empower them with AI-driven tools similar to your own — while maintaining complete visibility, control, and reporting across your partner network.

As your partners grow, you grow too.

Your Partners

Your partners gain access to the same AI-powered benefits that drive merchant retention and portfolio growth:

- AI-powered insights and suggested actions that guide merchant outreach and engagement.
- Visibility and reporting of onboarded merchants through the Portfolio Manager.
- Predictive analytics from the Retention Manager to identify and prevent churn.
- Revenue recovery tools from the Win-Back Manager to reclaim lost merchants.
- Partners can take immediate actions or queue actions for batch execution or outsource to 3rd party BPO.

Getting Started

Setup is simple. Partners can pay you directly or through Arcum as a pass-through — making revenue sharing flexible and scalable. Ready to grow your business?

Let's get started. Contact us for a demo or for more information at info@arcum.ai

Your Network

While your network benefits from your license, you gain the ability to:

- Add agents, ISVs, and Sub-ISOs to grow your overall merchant base.
- Provide added-value of RevMax Studio benefits to your extended network.
- Control access, permissions, and reporting at multiple levels.
- View network-wide performance and individual partner activity.
- Increase onboarding volume and strengthen your ecosystem.
- Add value with an AI solution with **your brand**.

"Partner Manager gave us the structure to scale. We added new agents fast, kept visibility across every portfolio, and grew our total revenue."
