

Your own Revenue Retention Program. Out-of-the-box.

Powered by Arcum's Headless Integration architecture

Give your platform and ecosystem an AI-powered revenue retention program. Arcum's headless integration option lets you embed predictive analytics, merchant risk insights, and proactive outreach workflows directly into your existing environment. **Grow your brand. Unlock your revenue.**

Your Brand, Your UI, Arcum's Intelligence

Arcum securely delivers insights and recommended actions through your back-end systems to display anywhere you choose (e.g., your platform, Salesforce).

Your internal teams and partners never leave your platform—creating a seamless experience and strengthening your ecosystem.

- Maintain full brand control
- Integrate with your existing workflow tools
- Support internal teams, sub-ISOs, and agents
- Improve retention without adding operational overhead

Turn Retention Insights Into a Revenue Stream

Offer AI-powered merchant intelligence and suggested actions as a value-added service for your partners, sub-ISOs, and agents.

Now, your platform helps your Sub-ISOs and agents:

- Identify merchants at churn-risk
- Trigger intelligent outreach sequences
- Recommend targeted actions for recovery
- Increase retention, revenue, and portfolio stability
- Your teams stay focused. Your partners become more effective. You unlock a new revenue source.

Your own revenue retention program. Setup is simple and fast.
